about BBSpro

Our products clean. Our service shines.

We began formulating and manufacturing our specialized cleaning products in 1995 and have grown to become one of Western Canada's largest full-service suppliers and distributors of biodegradable cleaning products. We specialize in implementing and servicing many kinds of cleaning and sanitation systems, providing dispensers, equipment, and ongoing maintenance for a wide variety of clients in the food and beverage, hospitality, retirement living, residential care facility, health, sports, commercial laundry, and industrial sectors. We are also Canada's largest installer and service provider of draft beer, wine, water and liquor systems, proudly serving the hospitality industry for over 25 years.

Once customers have experienced our level of service, they stay with us. Why? Quite simply, we never let them down. If there's a problem, they can reach us immediately and we'll solve it – promptly. If we spot a potential problem during a regular service call, we provide a solution... before it affects your operation.

DEE-LIME

DEE-LIME is an industrial descaler specially formulated to rapidly remove scale build from hard water. Use DEE-LIME to descale dish machines, coffee urns, ice machines, etc.

Caution:

- Use as directed
- Store away from food
- Keep out of reach of children
- Avoid eye and skin contact
- Refer to SDS before using

Product Directions and Dilutions:

Dilute DEE-LIME 2 to 8 oz. per gallon (13-50ml/L) for light duty descaling of equipment. Heavier scale conditions may require higher concentrations. After descaling rinse with fresh water. For further information consult your service representative.

disinfectant

GR#2 DISINFECTANT

Grassroots #2 Disinfectant (DIN: 02410613) is a concentrated quaternary based disinfectant that is used to disinfect non-porous surfaces directly. Used in hospitals, institutions, food processing and industrial environments, it is a one-step disinfectant that is effective against a broad spectrum of micro-organisms, of bacteria, is fungicidal and will prevent the growth of mould and mildew when used as directed.
Uses: Tables, Meat Slicers, Counters, Food prep areas, 3rd Sink Sanitizer

Product Directions and Dilutions:

SANITIZING – Food Contact Surfaces: to sanitize pre cleaned, non porous food contact surfaces and utensils immerse in a 13 mL per 1 L or 2 oz./gal (200 ppm) solution of Grassroots Disinfectant for at least 60 seconds. Allow to air dry. Do not rinse.

DISINFECTION – to disinfect hard non porous surfaces, add 58 mL/L or 9 oz./ gal of water. Treated surfaces must remain wet for 10 minutes. At this use level, Grassroots Disinfectant is also fungicidal. At this dilution, all surfaces on which this product is used and which come in contact with food, are to be rinsed with potable water.

Caution:

- Use as directed
- Store away from food
- Keep out of reach of children
- Avoid eye and skin contact
- Refer to SDS before using

washroom cleaner

PROVIROX

PROVIROX is a combination acid cleaner and hydrogen peroxide based sanitizer that will leave no residue and is biodegradable. When used in general bathroom cleaning and sanitization, PROVIROX is effective removing dirt, green stains and hard water deposits on porcelain and ceramic surfaces. PROVIROX is non-toxic and contains no harsh abrasives, alkalis or petroleum solvents.

Product Directions and Dilutions:

Wet the surfaces completely with the diluted solution and scrub lightly if necessary.

Light soils.....1 to 2 oz. (7-13ml/L)/gal

Medium soils.....3 to 4 oz. (20-25ml/L)/gal

Heavy soils.....5 to 6oz. (32-38ml/L)/gal

Always follow cleaning with a thorough fresh water rinse. Consult your service representative for more specific information.

Caution:

- Use as directed
- Store away from food
- Keep out of reach of children
- Avoid eye and skin contact
- Refer to SDS before using

PROBOWL

PROBOWL is an acid disinfectant bowl cleaner that kills odor causing bacteria. Powerful enough to eliminate all toilet bowl and urinals of hard water deposits and rust stains. Easy to use, PROBOWL leaves a fresh after scent.

Product Directions and Dilutions:

BOWLS - Pour 1 to 2 cups of PROBOWL directly in to standing toilet bowl water. Allow to dwell for a few minutes then using a toilet bowl brush scrub the surface especially under the rim. Flush to rinse.

URINALS - Apply PROBOWL directly on to the bowl brush or spray on to the urinal surface. Scrub to clean especially under the rim. Flush to rinse. For further information consult you service representative.

Caution:

- Use as directed
- Store away from food
- Keep out of reach of children
- Avoid eye and skin contact
- Refer to SDS before using

odour control products

PRO-FRESH

PRO-FRESH and PRO-FRESH EXTRA are concentrated disinfectant deodorizers used for odour control in enclosed areas such as kitchens, bedrooms, bathrooms, laundries, garbage cans and cars.

Product Directions and Dilutions:

Use PRO-FRESH in mop buckets, foaming devices, pressure washers and sprayers at 6-12 ml/litre (1-2oz per gal.) For garbage bins, compactors or soiled linen use a 40-80ml/litre (6-12oz/gal.) and apply with sprayer or mop on affected surfaces. Dispose of empty container by usual means complying with government regulations. Consult your specialist for more specific information.

Caution:

- Use as directed
- Store away from food
- Keep out of reach of children
- Avoid eye and skin contact
- Refer to SDS before using

CON OFF

Con Off is a concentrated liquid cement remover that contains no harsh chemicals and is safer than using conventional acid removers. Con Off contains surfactants to assist in faster penetration and removal and is completely biodegradable and non-toxic. Con Off is cost effective as there is less damage to the surfaces being cleaned and it reduces the chances of time lost due to worker injury.

Product Directions and Dilutions:

Con Off can be used in foaming and spray systems to give longer contact time on vertical surfaces and with a garden sprayer or bucket and brush method. Once applied the material will start to soften the cement and will give a mud like appearance. Allow contact time of at least 5 minutes then rinse off with fresh water. Extremely heavy areas or cold cement may require several applications but once clean a single use will clean the surface. If Con Off should dry to a white powder re-apply and rinse before drying. This product should not be applied to a hot surface or a surface exposed to direct sunlight. As with any cleaner safety precautions such as wearing gloves, goggles and protective clothing should be carried out. For further information consult your service representative.

Caution:

- Use as directed
- Store away from food
- Keep out of reach of children
- Avoid eye and skin contact
- Refer to SDS before using
