we promise to deliver:

- 1 Professional, dependable results and same-day callbacks
- 2 Regularly scheduled service calls and itemized reports
- 3 Proactive onsite solutions
- 4 Fast, dependable emergency service 24/7 - 365 days a year
- 5 Monitoring costs and assessing environmental impact

Many companies overpromise when it comes to service, but we aim to pinpoint your pain points and deliver exactly what you need.

Proactive. Professional. Proven.
That's **BBSpro.**

about BBSpro

Our products clean. Our service shines.

We began formulating and manufacturing our specialized cleaning products in 1995 and have grown to become one of Western Canada's largest full-service suppliers and distributors of biodegradable cleaning products. We specialize in implementing and servicing many kinds of cleaning and sanitation systems, providing dispensers, equipment, and ongoing maintenance for a wide variety of clients in the food and beverage, hospitality, retirement living, residential care facility, health, sports, commercial laundry, and industrial sectors. We are also Canada's largest installer and service provider of draft beer, wine, water and liquor systems, proudly serving the hospitality industry for over 25 years.

Once customers have experienced our level of service, they stay with us. Why? Quite simply, we never let them down. If there's a problem, they can reach us immediately and we'll solve it – promptly. If we spot a potential problem during a regular service call, we provide a solution... before it affects your operation.

beer chemicals

CRAFT BEER HIGH ALKALI CLEANER

CRAFT BEER HIGH ALKALINE is a concentrated liquid alkaline solution designed to be used in beer line, wine line, and tanks cleaning. It is chlorine free and is effective in killing bacteria, molds, and yeast. Craft Beer High Alkaline is great with removing odour, biofilms, and any residual contaminants in beer lines.

Available Sizes

10L	20L	200L	1,000L
-----	-----	------	--------

CRAFT BEER PERACETIC SANITIZER

CRAFT BEER PERACETIC SANITIZER is made with a concentrated blend of peracetic acid, acetic acid, and hydrogen peroxide. It is one of the most potent micro-biocidal cleaning chemicals available and acts against organisms including aerobic and anaerobic bacteria, molds, and other fungi that appear during the brewing process. It is ideal in breweries as it's fast acting, doesn't foam, requires minimal rinsing and is non-polluting to the environment.

Available Sizes

10L	20L	200L	1,000L
-----	-----	------	--------

CRAFT BEER ACID CLEANER

CRAFT BEER ACID CLEANER is a concentrated phosphoric acid and nitric acid blended solution that is designed to be used in beer line, wine line, and tank cleaning. It is effective in removing inorganic solids including stains, oxalates, beer stones, build-up, and any deposits residual.

Available Sizes

10L	20L	200L	1,000L
-----	-----	------	--------

PROPYLENE GLYCOL

PROPYLENE GLYCOL is used by the chemical, food, and pharmaceutical industries. As a food additive, it aids in the processing of foods and improves texture, flavor, appearance and shelf life. Also used in industrial products like paint, antifreeze, artificial smoke and e-cigarettes. BBSpro supplies food safe grade PROPYLENE GLYCOL.

Available Sizes

4x4L	20L	200L	1,000L
------	-----	------	--------

LEAK DETECTOR

LEAK DETECTOR is a highly concentrated formula designed to withstand low temperatures while quickly locating leaks in air lines, gas lines, pressure tanks, cylinders and valves.

Available Sizes

20L

dishwasher

SPS (SILVER PRE SOAK DETERGENT)

SPS is a heavy duty liquid detergent designed for use in removing tough to clean soils on glasses, flatware and dishware that are composed of silver. Use SPS by placing a piece of aluminum foil flat on the bottom of a plastic bus pan and add 2 oz. SPS per gallon water. Place cutlery in bus pan and soak for a minimum of 20 minutes. When solutions are cold or water becomes soiled, rinse silver cutlery with fresh water.

Available Sizes

2x3.5 lbs

BEACON (SOLID SILVERWARE PRESOAK)

BEACON is a concentrated solid silverware presoak detergent with enzymes which softens and loosens dried-on foods, guaranteeing removal of all food soils in the dish machine. BEACON is dispensed through a unique dispenser, typically the P4C4000 and R2U4000, to eliminate overuse. Excellent performance in all water conditions. One capsule yields approximately 760 gallons use solution.

Available Sizes

1x4.75 lbs/case

EXCELL 150

EXCELL 150 is a heavy duty chlorinated powdered detergent designed for use in high temperature dishwashing machines. It is a good option for machines where a dispenser can't be installed. EXCELL 150 effectively removes tough to clean soils on glasses, flatware and dishware. Not suitable for soft metals such as aluminum and silver.

Available Sizes

10kg

20kg

EXCELL 155

EXCELL 155 is a heavy duty non-chlorinated powdered detergent designed for use in high temperature dishwashing machines or as a cutlery presoak. EXCELL 155 effectively removes tough to clean soils on glasses, flatware and dishware. **Suitable** for soft metals such as aluminum and silverware.

Available Sizes

10kg

20kg

The below products are concentrated and designed to be dispensed directly to the dishwasher through a BBSpro Chemical Dispenser and cannot be diluted manually.

detergent

EXCELL 205

EXCELL 205 is our entry level product and is ideal for small locations that need a highly cost effective solution. EXCELL 205 is a heavy-duty liquid detergent designed for use in low and high temperature dish washers and glasswashers. EXCELL 205 effectively removes tough to clean soils on glasses, dishware and flatware in soft to medium hard water.

Available Sizes		
4x4L	10L	20L

EXCELL 210

EXCELL 210 is a heavy-duty chlorinated liquid detergent designed for use in high temperature recirculating dishwashing machines. EXCELL 210 effectively removes tough to clean soils such as tea and coffee on glasses, flatware and dishware in soft to medium water conditions. Not suitable for soft metals such as aluminum and silver.

Available Sizes		
4x4L	10L	20L

EXCELL 215

EXCELL 215 is our most popular heavy duty liquid detergent. It is designed for use in low and high temperature recirculating dish washers and glasswashers. EXCELL 215 effectively removes tough to clean soils on glasses, dishware and flatware in soft to medium water conditions. EXCELL 215 is 33% more concentrated than EXCELL 205 and is designed to neutralize high protein and fat build up in machines.

Available Sizes		
4x4L	10L	20L

EXCELL 235

EXCELL 235 is a heavy-duty liquid detergent designed for use in low and high temperature dish washers and glass washers. EXCELL 235 effectively removes tough to clean soils on glasses, dishware and flatware in all water conditions including hard water. EXCELL 235 provides extra strength in preventing scum forming. EXCELL 235 reduces the frequency to delime the machine. Not suitable for soft metals such as aluminum and silver.

Available Sizes		
4x4L	10L	20L

The below products are concentrated and designed to be dispensed directly to the dishwasher through a BBSpro Chemical Dispenser and cannot be diluted manually.

rinsing products

SUNBURST – SOLID PERFORMANCE DISHWASHER DETERGENT

SUNBURST is designed for use in any low-temp or high-temp machine. It removes heavy food soils fast and effectively, strips stains off dishes and cuts coffee stains on contact. This highly active, powerful detergent provides lower use cost and superior effectiveness in hard water resulting in clear, spot free dishes. This product is ideal for locations where you are space constrained.

Available Sizes		
4 x 8 lb capsules per case		

VALUE RINSE

VALUE RINSE is our entry level product and is ideal for small locations that need a highly costeffective solution. It is a blend of high strength wetting agents and foam suppressants designed to eliminate spotting, promote flash drying of wares and reduce wash tank foam levels allowing for maximum cleaning power.

Available Sizes		
4x4L	10L	20L

PRODRI 202

PRODRI 202 is a concentrated blend of high strength wetting agents and foam suppressants designed to eliminate spotting, promote flash drying of wares and reduce wash tank foam levels allowing for maximum cleaning power. It is designed for low and high temperature machines.

Available Sizes		
4x4L	10L	20L

PRODRI 205

PRODRI 205 is our most popular rinse aid. It is a concentrated blend of high strength wetting agents and foam suppressants designed to eliminate spotting, promote flash drying of glasses and dishes and reduce wash tank foam levels allowing for maximum cleaning power. The product has been formulated to be effective in both low and high temperature machines.

Available Sizes		
4x4L	10L	20L

The below products are concentrated and designed to be dispensed directly to the dishwasher through a BBSpro Chemical Dispenser and cannot be diluted manually.

rinsing products

PRODRI 210

PRODRI 210 has been specifically formulated as a concentrated High Temperature Rinse Agent. PRODRI 210 is a concentrated blend of high strength wetting agents and foam suppressants designed to eliminate spotting, promote flash drying of wares and reduce wash tank foam levels allowing for maximum cleaning power. At temperatures below 150 ° F foaming may occur.

Available Sizes		
4x4L	10L	20L

PRODRI 215 [PARTNER PRODUCT EXCEL 235]

PRODRI 215 has been specifically formulated as a rinse agent for hard water conditions. PRODRI 215 is a concentrated blend of high strength wetting agents, foam suppressants and mineral reducers designed to eliminate spotting, promote flash drying of wares and reduce wash tank foam levels. The acid in the product helps neutralize the hard water minerals. Prodiri 215 can be used in both low and high temperature machines.

Available Sizes		
4x4L	10L	20L

SUNBURST CLARITY [PARTNER TO SUNBURST DETERGENT]

SUNBURST CLARITY For customers using Sunburst Solid Performance this is the partner solid rinse aid. Sunburst Clarity provides the ultimate in performance and cost effectiveness for low and high temperature dishwashers. Sheeting action inhibits the formation of water spots. It is effective in all water conditions. The product is made from 100% active raw materials with no water or fillers added.

Available Sizes
1x5 lbs/case

sanitizers

LT SANITIZER 6% OR 9%

LT Sanitizer 6% is a chlorine sanitizer designed for use in low temperature dish machines. LT Sanitizer 9% is a heavier duty chlorinated sanitizer. Both products provide quality results for energy-efficient warewashing. This product is effective in all water conditions. Not suitable for softmetals such as aluminum and silver.

Available Sizes		
4x4L	10L	20L

IOSAN

IOSAN is our most popular sanitizer for low temperature glasswashers. It is an iodine based sanitizer and rinsing agent for low- temperature glass washers as it is non corrosive and leaves glasses spot free.

Available Sizes		
4x4L	10L	20L

grassroots product line

Give your business the **green light**.

With growing environmental awareness and ongoing regulatory changes, balancing the needs of business and the environment is becoming increasingly important. And we have the right solutions for you. Our line of eco-sensitive Grassroots products has been specially formulated to meet national standards for green products and will enhance environment and worker safety. All Grassroots products comply with all regulations as recommended by Green Seal and Environmental Choice. They are 100% water soluble and biodegradable.

We know there are many 'green' products out there, but here is what's different about ours: they work as well as our regular products. We guarantee it. If you don't think so, we'll exchange it or give you your money back.

GR#1 MULTIPURPOSE CLEANER

Grassroots #1 Multi-purpose Cleaner is a heavy-duty water-soluble degreaser with natural cleaning power and is designed to remove heavy soils and greases in a wide range of hard surface cleaning applications. Effectively used for cleaning walls, floors, a large variety of food services equipment and in general building maintenance. Word of Caution: Multi-Purpose Cleaner may etch aluminum.

Uses: Counter tops, Tables Legs, and Floors

Available Sizes

1L EZ Measure	4L	4x4L	10L	20L
---------------	----	------	-----	-----

GR#2 READY-TO-USE DISINFECTANT

Pre-diluted from Grassroots #2 Disinfectant, this ready-to-Use disinfectant is a quaternary-based disinfectant that is used to disinfect non-porous surfaces directly without any further dilution. Used in hospitals, institutions, food processing and industrial environments, it is a one-step disinfectant that is effective against a broad spectrum of microbes, including the COVID-19 virus.

Uses: Tables, Meat Slicers, Counters, Food prep areas, 3rd Sink Sanitizer

Available Sizes

12x1L	4L	4x4L	10L	20L
-------	----	------	-----	-----

GR#2 DISINFECTANT

Grassroots #2 Disinfectant (DIN: 02410613) is a concentrated quaternary based disinfectant that is used to disinfect non-porous surfaces directly. Used in hospitals, institutions, food processing and industrial environments, it is a one-step disinfectant that is effective against a broad spectrum of micro-organisms. of bacteria, is fungicidal and will prevent the growth of mould and mildew when used as directed.

Uses: Tables, Meat Slicers, Counters, Food prep areas, 3rd Sink Sanitizer

Available Sizes

---------------	----	------	-----	-----

GR#3 CONCENTRATED GLASS CLEANER

Grassroots #3 Concentrated Glass Cleaner is a fast, easy-cleaning solution is versatile enough to use on appliances, kitchen and bathroom surfaces, windows, mirrors, glass tabletops, and more. The special ammonia free formula has no harsh smell, just a fresh, clean scent. Grassroots #3 Concentrated Glass Cleaner will not streak, haze or leave a film. It easily cuts even the toughest grease marks.

Uses: Glass Surfaces and Light Duty Cleaning

Available Sizes

1L EZ Measure	4L	4x4L	10L	20L
---------------	----	------	-----	-----

GR#4 DEGREASER

Grassroots #4 Degreaser is an extra heavy-duty water-soluble degreaser designed to remove heavy soils and greases in a wide range of hard surface cleaning applications. Effectively used for cleaning walls, floors, a large variety of industrial equipment and in general building maintenance.

Uses: Floors, Ovens, Walls

Available Sizes

1L EZ Measure	4L	4x4L	10L	20L
---------------	----	------	-----	-----

GR#5 CUTLERY PRESOAK

Grassroots #5 Cutlery Presoak is a heavy-duty liquid detergent designed for use in removing tough to clean soils on glasses, flatware and dishware. Penetrates and lifts the toughest greasy food soils. It is specifically designed for cleaning soft metals such as silverware.

Uses: Presoaking Cutlery

Available Sizes

4x4L	10L	20L
------	-----	-----

GR#6 POT & PAN DETERGENT

Grassroots #6 Pot and Pan Detergent removes burnt-on, baked-on food and grease. Penetrates and lifts the toughest greasy food soils, including the yellow or black buildup that develops on pots and pans over time. Use detergent on dishes, stoves, ovens, and grills.

Uses: Hand, Dish, Pan and Pot Washer

Available Sizes

4x4L	10L	20L
------	-----	-----

GR#7 BIOLOGICAL FLOOR CLEANER

Grassroots #7 Biological Floor Cleaner is a concentrated liquid bacterial enzyme designed to be used on floors and any other hard surface to digest and liquefy organic waste, grease and food by-products. It is non-toxic, non-acidic, non-alkaline, non-pathogenic and 100% ecologically safe.

Uses: No Rinse Floor Cleaner

Available Sizes

4L	4x4L	10L	20L
----	------	-----	-----

GR#8 TUB & TILE CLEANER

Grassroots #8 Tub and Tile Cleaner is used on vinyl surfaces, china toilets, porcelain surfaces, sinks, plastic shower curtains/liners, ceramic tiles, grout lines, and vanity tops. It is water based and has no toxic chemicals. Grassroots #8 Tub and Tile Cleaner is non-flammable. It can be washed down the drain without causing damage.

Uses: Toilet, Urinal, Tub and Shower Tile Cleaner

Available Sizes	
4x4L	10L

GR#9 NEUTRAL FLOOR CLEANER

Grassroots #9 Neutral Floor Cleaner is a heavy-duty water-soluble biodegradable cleaner that has no toxic chemicals and is designed to remove soils and greases in a wide range of hard surface cleaning applications. It has a zero flash point so is non-flammable and can be washed down the drain without causing damage.

Available Sizes	
10L	

GR#10 – BIOLOGICAL GREASE DIGESTER

Grassroots #10 Biological Grease Digester is a concentrated liquid biological solution designed to be used drain lines, greases traps and septic tanks to digest and liquefy organic waste, grease and food by-products.

Available Sizes	
4x4L	10L

GR#12 – OVEN CLEANER

Grassroots #12 Grassroots Oven Cleaner is formulated to remove tough greasy build ups in institutional and commercial kitchens. It is designed to clean grease and carbon from hoods, ovens, grills, broilers, deep fryers, etc. Its thickened formula clings to vertical surfaces and hard-to-reach areas.

laundry chemicals

AQUA BRITE

AQUABRITE is a highly concentrated chlorine laundry destainer used for whitening, brightening and destaining laundry all in one step. The highly active agent makes AQUABRITE ideal for cotton, perma-press and most synthetic material blends.

Available Sizes

10L

20L

ENVIRO BRITE

ENVIRO BRITE is a highly concentrated Hydrogen Peroxide based laundry stain remover used for whitening and brightening laundry all in one step. The highly active agent makes ENVIRO BRITE ideal for cotton, perma-press and most synthetic material blends.

Available Sizes

10L

20L

200L

SPOTTING KIT

The Laundry stain removing package contains 4x1L spot removers. You can choose one of each product or two or more of a particular product. Spray-on directly over stain, wait 10 minutes before washing (at least 20 minutes for PROTEIN PLUS in order for the enzymes to break down organic soil)

SOLVENT PLUS

Neutral pH solvent based stain remover engineered to target a wide range of stains including: cooking oil, lipstick, shoe polish, motor oil grease, make-up, tar suntan oil, crayon etc.

PROTEIN PLUS

Enzymatic stain remover engineered to target: blood, cosmetics, ketchup, wine, food beverages, candy, soil on cuff/collar, vomit

RUST PLUS

Oxidizing stain remover engineered to target: rust, metallic marks, tea, coffee

ALKA PLUS

High pH alkaline stain remover engineered to target: lipids such as grease, cooking oil, and other organic oils.

liquid laundry detergent

LAUNDRY XP

LAUNDRY XP is a highly concentrated laundry detergent designed with highly active detergents, soil suspending surfactants and emulsifiers that make LAUNDRY XP ideal for cotton, perma-press and most synthetics material blends. Laundry XP is ideal for hospitality and healthcare facilities.

Available Sizes

10L

20L

PRO 100

PRO 100 is a concentrated laundry break builder that prepares the wash by raising the pH of wash water. It is designed to accelerate the washing process by allowing fabric pores to open up and release entrapped soil particles. It also helps break down lipid particles such as grease, fat and oil by a process called saponification, which turns insoluble lipids into soap. Specially formulated with water softeners to promote high speed cleaning and assist in free rinsing of soils. PRO 100 is effective when used in a break step or when combined with a detergent to produce a complete wash process. For commercial applications should be used in conjunction with Laundry XP.

Available Sizes

10L

20L

RELEASE

RELEASE LIQUID LAUNDRY DETERGENT is a highly concentrated laundry detergent containing enzymes along with biodegradable surfactants and emulsifiers that make RELEASE LIQUID LAUNDRY DETERGENT ideal for cotton, perma-press and most synthetics material blends.

Available Sizes

10L

FRUIT FLIES

ZAP

ZAP is a liquid designed to control fruit flies, flies, mosquitoes, gnats and small flying moths in food service areas, restaurants and bars. Best results are achieved with a consistent well designed sanitation program and when good insect control preventative practices are used. The chemical design of ZAP targets cell proteins in larvae and works as a true preventative product by eliminating insects from the larvae stage. You will start to see results in the first 24 hours and using ZAP as part of your ongoing pest control program will continue to limit the amount of flying insects in your location.

industrial chemicals

ALUBRITE 801

It is well known that oxide films form on the surface of aluminum when exposed to the atmosphere. The surface of aluminum will accordingly become eroded and lose its lustre.

#1 Best Seller - ALUBRITE 801 is an extra heavy duty aluminum cleaner and brightener that provides a medium hard finish to oxidized aluminum. Specially formulated with highly active biodegradable detergents and high concentrations of mineral acids. ALUBRITE 801 quickly penetrates and removes exhaust deposits, oils and films while brightening aluminum. Not suitable for use on glass or polished rims.
